- Car adaptor and handy remote control included
- Few buttons for simple and easy control
- Share entertainment fun with multi-headphone jacks

PHILIPS
sense and simplicity

Portable DVD Player
7" dual-screen LCD display

PET712/12

Highlights

Dual TFT LCD display screens
Dual screens allow you to display same videos or images from the portable DVD players. Simply plug in and mount the screens on the headrests in your car. Now you can enjoy your favorite DVD movies and JPEG photos with family and friends at the backseats easily and comfortably.

Play DVD, DivX and MPEG4
With DivX® support, you are able to enjoy DivX® encoded videos in the comfort of your living room. The DivX® media format is an MPEG4-based video compression technology that enables you to save large files like movies, trailers and music videos on media like CD-R/RW, memory cards and DVD-video. DivX® CDs can be played back on selected DVD players, DVD Recorders and Home Theater Systems.

MP3-CD, CD and CD-RW music
MP3 is a revolutionary compression technology by which large digital music files can be made up to 10 times smaller without radically degrading their audio quality. A singe CD can store up to 10 hours of music.

Share picture CD (JPEG)
Multi-format playability allows you to view images on the go and play most disc formats for maximum disc compatibility and viewing pleasure.
